Aligned Assets Win 10 New Clients

Aligned Assets Ltd., creators and suppliers of the industry leading gazetteer management Symphony Suite, has added 10 new clients to its rapidly expanding list of customers within the UK.

Local Councils are under pressure to comply with new standards for presenting their Local Land and Property data and hence many are looking for a supplier who can meet their needs. Not only does Aligned Assets have over ten years of experience in this field, it was also the first company in the country to be accredited as a compliant supplier for the new NLPG:2006 BS7666 standard.

This combination of experience and knowledge persuaded the following councils that Aligned Assets was the perfect supplier to rely on for their LLPG support:

- West Lindsey District Council
- Coventry City Council
- Suffolk Council
- Enfield Council
- Canterbury City Council
- Portsmouth City Council
- Liverpool City Council
- Ealing Council
- Cumbria County Council

- Wrexham County Borough Council

The comments of Malcolm Norman, GIS Development Officer at Portsmouth City Council, were typical of the new customers: *“We are delighted to be migrating to Aligned Assets’ Symphony GMS v3.0. We are very spatially built around maps here at Portsmouth and the ability to locate with the Symphony Gazetteer is the most logical way to do things. We have developed a good relationship with Aligned Assets and have found their support and help to be first class.”*

To contact Aligned Assets and find out more information, telephone +44 (0)870 750 8 750 or visit www.aligned-assets.co.uk
